FILED

RE: Chevron U.S.A. Inc.—Docket No. 05-0002

Dear Commissioners and Staff:

In response to ICF Consulting, LLC's questions concerning Chevron U.S.A. Inc.'s ("Chevron") prior submission of its confidential responses to PUC-IR-42 and PUC-IR-49, attached are Chevron's revised confidential responses to those two Information Requests. In addition, also attached are paper copies of Chevron's confidential PowerPoint presentation which was presented in connection with Chevron's briefing on the methanol issue to the Commission, the Consumer Advocate, and the Department of Business Economic Development and Tourism ("DBEDT") on March 3, 2006.

Both sets of these documents are comprised of information and related data which Chevron considers confidential, business sensitive, trade secrets and/or proprietary information, the disclosure of which may cause business and economic harm to Chevron. Pursuant to Protective Order No. 21669, Chevron hereby files the above referenced documents on a confidential basis. None of these documents are being served on any of the parties to this proceeding except for the Commission and the Consumer Advocate. By separate confidential transmittal, Chevron will be serving a copy of the PowerPoint presentation to DBEDT, again pursuant to Protective Order No. 21669.

Please feel free to contact me if you should have any additional questions or require further information.

Very truly yours,

Michael H. Lau
